

SERRATURE DA INFILARE PER PORTE METALLICHE - MORTICE LOCK FOR METAL FRAMES

SERRATURE DA INFILARE PER PORTE METALLICHE

MORTICE LOCK FOR METAL FRAMES

SPECIFICHE GENERALI

GAMMA DI PRODUZIONE

Serrature tipo verticale o orizzontale.
Serrature meccaniche o elettriche.
Scatola aperta o chiusa.
Serratura orizzontale con scatola chiusa e cilindro ovale.
Serratura elettrica orizzontale con scatola chiusa e cilindro ovale.
Serratura verticale con scatola aperta e cilindro ovale.
Serratura verticale con scatola chiusa e cilindro a profilo europeo.
Serratura verticale con scatola chiusa e cilindro a spillo.
Entrate 15-20-25-30-35-60-70-80 mm.
Catenaccio a singola o a doppia mandata.
Catenaccio a gancio.
Scrocci reversibili azionati da maniglia o da chiave.
Rullo regolabile.
Accessori disponibili.
Vasta disponibilità di cilindri con diverse caratteristiche e molteplici lunghezze (vedi capitolo cilindri).
Le serrature possono essere fornite con combinazioni uguali (KA-KS) o masterizzate (MK-GMK).
Intercambiabili con la maggior parte delle serrature esistenti.
Contropiastre non incluse. Da ordinare separatamente.

CARATTERISTICHE SICUREZZA

Doppi cilindri a profilo europeo conformi alle norme europee EN 1303 - grado 3 -
Cilindri ovali con 5 pistoncini.
Cilindri a spillo.
Profilo entrata chiave paracentrico.

MATERIALI UTILIZZATI

Scatola, frontale e contropiastra in acciaio.
Scrocci in metallo sinterizzato e zama.
Catenacci in zama.
Corpo e barilotto cilindri ricavati da barra in ottone trafilato.
Molle interne dei cilindri in acciaio inox.
Chiavi ricavate da nastro in ottone.

FINITURE

Scatola e frontale zincati.
Frontali nichelati o zincati.

IMBALLO

Individuale.

GARANZIA

Il funzionamento meccanico di tutte le serrature è garantito per 5 anni.

GENERAL SPECIFICATION

PRODUCT RANGE

Horizontal and vertical type locks.
Mechanical and electric lock.
Open and closed case.
Horizontal locks with closed case and oval cylinder.
Electric horizontal lock closed case and oval cylinder.
Vertical locks with open case and oval cylinder.
Vertical locks with closed case and Euro profile cylinder.
Vertical locks with closed case and cross key cylinder.
Backset 15-20-25-30-35-60-70-80 mm.
Single or double throw deadbolts.
Hook bolt.
Reversible latchbolt operated by handle or key.
Adjustable roller.
Available accessories.
Large range of cylinders with various features and in different sizes (see cylinder index).
Locks can be supplied: keyed alike (KA-KS) or masterized (MK-GMK).
Suitable for replacing many models of mortice locks.
Strikes not included. To be ordered separately.

SECURITY FEATURES

Euro profile double cylinders conforming to EN 1303 - grade 3 -
Oval cylinders with 5 pin tumbler key mechanism.
Cross-key cylinders.
Paracentric keyway.

MATERIAL SPECIFICATION

Steel case, forend and strike.
Sinterized metal and zamac latchbolts.
Zamac deadbolts.
Extruded solid brass cylinder body and plug.
Inox steel cylinder springs.
Brass strip for keys.

FINISHES

Zinc plated case and forend.
Nickel plated or zinc plated forend.

PACKING

Singly boxed.

GUARANTEE

All our locks are covered by a 5 year mechanical guarantee.

SERRATURE DA INFILARE PER PORTE METALLICHE SCATOLA CHIUSA - FRONTALE IN ACCIAIO INOX -

CARATTERISTICHE GENERALI

Scrocco reversibile con spigolo diritto azionato da chiave.
Catenaccio a una mandata. Scatola e coperchio zincati,
frontale in acciaio inox. Fornita in scatola singola.
Completa di cilindro profilo europeo nichel opaco
mm. 30,5/30,5=61.

Fornita completa di 3 chiavi in ottone nichelato.
Contropiastra non inclusa: da ordinare separatamente.

SERRATURE DA INFILARE

SPECIFICHE GENERALI

GAMMA DI PRODUZIONE

Scatola aperta o chiusa.
Catenacci a singola o a doppia mandata.
Catenaccio singolo o triplo.
Scrocchi reversibili, diritti o smussati, azionati dalla maniglia o dalla chiave.
Rullo regolabile
Frontali acciaio inox, acciaio o ottone.
Interasse 85, 70 o 72 mm.
Quadro maniglia 7 o 8 mm.
Entrate 20-25-30-35-40-45-50-60-70 mm.
Bordi quadri o tondi.
Modello con chiave lunga per porte interne.
Modello a doppio quadro per porte interne di servizio.
Vasta disponibilità di cilindri con diverse caratteristiche e molteplici lunghezze (vedere indice cilindri).
Ampia gamma di contropiastre.
Le serrature possono essere fornite con combinazioni uguali (KA-KS) o masterizzate (MK-GMK) su richiesta.
Intercambiabili con la maggior parte delle serrature esistenti.

CARATTERISTICHE SICUREZZA

Scatola con fori 38/42 mm per fissare le borchie di sicurezza.
Cilindri a profilo europeo conformi alle norme EN 1303
Profilo entrata chiave paracentrico.
Camme con gradi di inclinazione diverse a difesa da forzatura.

MATERIALI UTILIZZATI

Scatola in acciaio.
Frontale e contropiastra in acciaio, ottone o acciaio inox.
Scrocchi in metallo sinterizzato.
Catenacci da barra in acciaio trafilato o da barra in ottone trafilato.
Corpo e barilotto cilindri ricavati da barra in ottone trafilato.
Molle interne dei cilindri in acciaio inox.
Chiavi ricavate da nastro in ottone.

FINITURE

Scatola verniciata elettrostaticamente con polvere epossidica.
Scatola zincata.
Frontali e contropiastre in ottone naturale, ottone lucidato a specchio, ottone nichelato e ottone cromato.
Frontali e contropiastre in acciaio tropicalizzato, ottonato, nichel lucido, nichel opaco, finitura galvanica bronzato e verniciati color "oro" o grigio.
Finitura PVD su richiesta.
Frontali e contropiastre in acciaio inox.

IMBALLO

Individuale. Serratura completa di cilindro contropiastra e viti di fissaggio.

GARANZIA

Il funzionamento meccanico di tutte le serrature é garantito per 5 anni.

MORTICE LOCK

GENERAL SPECIFICATION

PRODUCT RANGE

Open or closed case.
Single or double throw deadbolt.
Single or triple deadbolts.
Straight or beveled reversible latchbolts operated either by key or by handle.
Adjustable roller.
Inox stainless steel, steel or brass forend.
85, 70 or 72 mm. spacing.
7 or 8 mm. spindle hole
Backset 20-25-30-35-40-45-50-60-70 mm.
Square or rounded edges.
Lever mortice lock with long key for inside doors.
Double spindle hole for bathroom doors on request.
Large range of cylinders with various features and in different sizes (see cylinder index).
Large range of striking plates available.
Locks can be supplied keyed alike (KA-KS) or masterized (MK-GMK) on request.
Suitable for replacing many models of mortice locks.

SECURITY FEATURES

Case with 38/42 mm. holes to fix security escutcheon.
Europrofile cylinders conforming to EN 1303
Paracentric keyway.
Various degree cams to prevent forcing.

MATERIAL SPECIFICATION

Steel case.
Steel, brass or inox steel forend and striking plate.
Sinterized metal latchbolts.
Extruded solid steel or solid brass for deadbolts.
Extruded solid brass cylinder body and plug.
Inox steel cylinder springs.
Brass strip for keys.

FINISHES

Case electrostatically coated by epoxidic powder.
Zinc plated case.
Brass forends and striking plates in natural brass, mirror polished brass, nickel plated and chrome plated brass finishing.
Steel forends and striking plates in yellow bichromate, brass, bright nickel, dull nickel, bronze plated galvanic finishing and "gold" or grey colour painted finishing.
PVD finishing on request.
Inox stainless steel forends and striking plates.

PACKING

Singly boxed complete with cylinder, strike and fixing screws.

GUARANTEE

All our locks are covered by a 5 year mechanical guarantee.

SERRATURE DA INFILARE PER PORTE IN LEGNO SCATOLA CHIUSA - FRONTALE IN OTTONE -

MORTICE LOCKS FOR WOODEN DOORS CLOSED CASE - BRASS FOREND -

CARATTERISTICHE GENERALI

Frontale a bordi quadri. Scrocco reversibile in ottone azionato da chiave. Catenaccio triplo quadro in ottone a due mandate. Scatola e coperchio verniciati colore nero. Fornita in scatola singola con viti di fissaggio e contropiastra piana in ottone. Completa di cilindro mm. 30,5/30,5=61. Fornita completa di 3 chiavi in ottone nichelato.
